US DOJ

Why are you letting microsoft off so easy. Everyone and I mean EVERYONE knows that Microsoft is a Monopoly that pushes everyone else around. Consumers, Businesses, Competitors, and ultimately the Economy are going to suffer because you don't have the courage or integrity to do what is right.

I have lost a little more faith in my government because of this weak attempt to "eliminate Microsoft's illegal practices, prevent recurrence of the same or similar practices and restore the competitive threat".

It was made apparent in a recent interview that reporters have a better understanding of this case than the Attorney General (<http://www.usdoj.gov/ag/speeches/2001/1102newsconference.htm>), but surely someone in the Justice Department is competent enough to see that this charade, cloaked in legal jargon, is not in the best interests of the American People.

My only question is whom do I need to vote out of office to get the Justice Department revamped from the special interest puppet it is today?

A US Citizen jaded by the politics involved in our "Justice" Dept.
